

CPSC 323 Compilers & Languages

PROJECT 2

**Deadline: May 13th, 2024**

Project 2 consists of one program to be submitted/uploaded online on Canvas.

You are allowed to write your project code in C/C++/Java/Python etc. but you ARE NOT allowed to use Yacc, Bison, or any other items similar that assist in the creation of compilers.

- Given the following CFG and the parsing table, write a program to trace input strings over { id, +, \*, ), ( } and ending with \$.
- Test it on three input strings (1) (id+id)\*id\$ (2) id\*id\$ (3) (id\*)\$
- Show the content of the stack implementation for each case. Output must be displayed along the stack implementation.

Output (Example):

Input: (id+id)\$

Stack:

Step	Stack	Input	Action
...	...	...	...
...	...	...	...

Output: String is accepted/ String is not accepted.

- Draw the Parse Tree for each case. Save this information in a document named “tree\_mydesign”.

CFG	FIRST	FOLLOW
$E \rightarrow E + T$	$FIRST(E) = \{ (, id \}$	$FOLLOW(E) = \{ +, ), \$ \}$
$E \rightarrow T$	$FIRST(T) = \{ (, id \}$	$FOLLOW(T) = \{ +, *, ), \$ \}$
$T \rightarrow T * F$	$FIRST(F) = \{ (, id \}$	$FOLLOW(F) = \{ +, *, ), \$ \}$
$T \rightarrow F$		
$F \rightarrow (E)$		
$F \rightarrow id$		

### Parsing Table

State	id	+	*	(	)	\$	E	T	F
0	S5			S4			1	2	3
1		S6				acc			
2		R2	S7		R2	R2			
3		R4	R4		R4	R4			
4	S5			S4			8	2	3
5		R6	R6		R6	R6			
6	S5			S4				9	3
7	S5			S4					10
8		S6			S11				
9		R1	S7		R1	R1			
10		R3	R3		R3	R3			
11		R5	R5		R5	R5			

- You must write a report file to briefly specify documentation & how to setup/run your program if needed. Document the code, processes, roles, and results in this file.
- Your executable program, which is supposed to be developed in C/C++/Java/Python, should represent the implementation of your idea.
- Your submission must have Three (3) files: your design file, your program file, and a documentation file. The Design file and Documentation file should be submitted in PDF format. Upload it in canvas (either the zip file or GitHub link).
- Remember, the journey is as important as the destination. All the best!
